## Ethiopia Dispute Halted

By The Canadian Press

Arbitration of the Italian-Ethiopian dispute was temporarily at a halt today, pending revival of the joint commission on the Unital incident by the two countries as a fifth and neutral member.

While Great Britain, France and Italy were ready to meet in Paris shortly, the Italian government, Italian military preparations continued with unusual vigor. It was considered that the two countries' last best blackshirt division would be formed.

League circles in Geneva recognized the situation remained full of perils, despite the Italian's stand on pacificism, realizing that if the parallel efforts at settlement fail the two countries would be involved in an inescapable crisis in September.

Government circles in both London and Paris were, however, of the opinion of reaching a settlement with Italy.

The Italian foreign office denied Italian reports of attacks by Ethiopians on a French Catholic mission established in the country, but had been looted a long time ago by thieves and had already been re-secured.

## SURVEY SHOWS HARVEST AID SUFFICIENT

Ample Number Men Can Be Drawn From Works Camps

At present employed in work camps under the jurisdiction of Dominion National Defence Department and Alberta Relief Commission, 1,000,000 men will be available for use in harvest work, it was learned from officials.

Statistics made available show that more than 1,600 men are encamped under the jurisdiction of the Dominion defence department and in camps operated by the Relief Commission, 1,000,000 men being reported daily.

From the present condition of grain, it is estimated that in heavy rains, it is not expected there will be any general demand for harvest help until the first of the current month, as cutting is not expected to be general before that date, it was learned from men in the Edmonton district by August 15.

It is expected that fully 2,500 men will be in relief camps available for harvest work by the time the rains are over.

Reports received from many districts are that many are already difficult to find, as they are bound for grain fields or in the hills-hike route. In most cases men did not leave their homes or positions with farmers for whom they have worked for previous years, as they are seeking employment without registering with the employment office.

Officials have been unable to estimate as yet the number of men required, as the available supply from the camps, plus those other areas, are not known.

The demand will vary and it is expected that many men will migrate from the southern sections to the northern sections as in general, the southern areas will be finished harvesting before the north.

## HOUSEWIVES IRK BUTCHERS

DETROIT Aug. 5—Emil Schwartz, director of the National Association of Meat Wholesalers, said the butchers in the Detroit area had suggested an appeal be made for a ban on housewives' picketing against militant butchers who have picketed their establishments on the demand of a "strike" to force meat prices down.

### 4TH VICTIM PLANE CRASH DIES SUNDAY

David Sloan Succumbs To Injuries in Vancouver Hospital

VANCOUVER, Aug. 5—David Sloan, manager of the Victoria Gold mines of British Columbia Limited, died yesterday at the Victoria General Hospital, receiving treatment at Alta Lake on July 30 to the break of his neck. Dr. R. W. Brock, Mr. Brock and the pilot William McCluskey.

Death came suddenly 24 hours after Vancouver's pilot had died at the funeral of Dean and Mrs. Brock.

**LOSS OF BLOOD FATAL**

Ever since Mr. Sloan was rushed to hospital here from Alta Lake by train, boat and ambulance, he had been bleeding and pain in his effort to the great solution of difficulties in this country. He took his life.

—In the last five years banks of Canada have contracted control of the economy, he said. At the same time, they have increased their investments in government securities, he said.

Mr. Stevens, reconstruction leader, faced a Pacific coast audience here Saturday night.

Banks of Canada, not supposed to be depositaries for government bonds," he protested. "They are supposed to supply the lifeblood of Canadian commerce." He charged that commercial banks had strangled business by cutting down on loans.

### 3 WOMEN IN CRASH KILLED

NACAGDOCHES, Texas, Aug. 5.—Three women and a man were killed and six persons injured when a small plane in which they were traveling crashed into a party of churchgoers at the New Hope community, here yesterday.

Another similar storm was reported somewhere.

—But the round-the-world flier bluntly refused to indicate how soon he would be back again, probably not until the end of the month.

He said he would take the plane up from Renton airport on Lake Washington to test its landing gear, which was finished yesterday.

Social Credit Candidate Refuses Invitation of J. S. Copper

CALGARY, Aug. 5.—The 13th meeting held by the Cadomin Cadomin Friday night provided the residents with some entertainment. Lillian Stevens, Mrs. J. S. Copper, and the Social Credit candidate, J. H. Unwin, arrived at the hall.

Mr. Copper promptly invited the former Aberhart speaker to take a seat at the table of the Manitoba and Social Credit Society.

Mr. Unwin declined the invitation, saying that he had no arrangement with the speakers.

Asked if he planned to take a seat at the table of the Manitoba and Social Credit Society, Mr. Unwin declared that time would not permit him to do so, as he would be back again, probably the end of the month, and probably Alaska as well.

"Just as you please," he said to Mr. Copper, who was leaving.

During the day he visited with J. Chaitin, French consul here and many other callers.

# BULLETIN CAMERAS RECORD BRITAIN'S PROUDEST HOURS AS MIGHTY PARADE ON LAND AND SEA THRILLS KING AND COUNTRY

With thousands of sailors and officers manning the rails, pennants flying, immaculate hulls and turrets gleaming in the sun, the battle-ships of Great Britain's fleet are shown in a picture of power as they floated at anchor during the Silver Jubilee review by King George V. At Spithead, England. The royal yacht "Enchantress" is shown at right steaming past the saluting warships. Above: The huge guns of H.M.S. "Refrigerator" fire a salvo during manoeuvres as witnessed by the King.

The far-flung power of Britain's navy is evinced in the impressive air view (top) of the jubilee review at Spithead, England. The yacht "Enchantress" (centre foreground) carries King George V through the naval monitor display. Below: The British army, in a great review at Aldershot, England, displays its strength and discipline. Here a company of cavalry turns "eyes right" as it trots in review before the King, who is pointed out by the arrow, standing under a canopy.

make his contention that the Alberta proposals are not Social Credit and are neither economic nor within the provincial jurisdiction.

From the Alberta manual and the Union paper, Mr. Cowper showed that it is the intention of Alberta to exert an inner council or soviet which is to be above and beyond legislative control, to be a constitutional government and introducing dictatorship into Alberta.

#### ALL WAGE SCALES

And the things which the inner council proposes do not. Cowper read from the manual that it is proposed to fix all wage scales in the provinces.

"This means," he said, "the end of trade unionism, the end of the end of the right to collective bargaining."

Other things which the Liberal candidate read out showed that Alberta proposes to confiscate all the Dominion's assets in Alberta. The Coal Branch in payment for coal, and pay the miners in credit slips, which would be good only in Alberta, and in the country which would place its goods in the Canadian market.

He asserted that 23 most-favored nations in the world, including the Mackenzie King himself are standing in the way of any rapid change in the economic situation in Canada and in other countries.

As soon as this Dominion entered into negotiations with other countries to improve trade relations, other countries followed, and nations trading must also do so. Inevitably this made negotiation of wages more difficult, and with cumbering and cumbersome.

#### LOWER INTEREST RATES

Trade development was important, Mr. Stevens agreed, but he said that the economic situation was of a more important nature. What of unemployment? On the first step to be taken, Canada must have a clear-cut policy of lowered interest rates. Based on the record of the last five years, agrarians, retail merchants, wholesalers, transportation and public utilities had all suffered losses in their revenues, and the farmers to the tune of 40 per cent for the manufacturers. Financial houses on the other hand, showed a gain of 20 per cent.

Whenever there is an interest rate cut, he said, it is bound to bring up, such reduction would "drive capital out of the country and into foreign countries if that he required that credit must be eased at all costs. He gave the example of the lumber credit refused by banks had injured the lumber business in Alberta.

He had talked to a prominent banker about the reluctance of the banks to finance the ultimate commercial undertakings.

The plan had been that banks were ready to lend on good security.

"A lie is half a truth," he said, the Liberal speaker, quoting Tennyson. The invitation was not accepted.

Delegations from Mountain Park and Luscar were present at the meeting in the Victoria Theatre, the chair being taken by J. K. Richmond of Luscar.

audience back a few years, stating that the market for Canadian products had been closed to Canada's main export products. Their tariff and trade policies had made it extremely difficult to trade at all, let alone increase trade.

The government had been wise in not naming him, said Mr. Cowper, read from the manual that the Davies government, Mr. Cowper said, had lowered on textiles and agricultural implements. Generally, a good deal of trade should be based on relative labor costs in Canada and in the country which would place its goods in the Canadian market.

**IF IT WILL HELP ALBERTA THE EDMONTON BULLETIN IS FOR IT**

**MONDAY, AUGUST 5**

### IT IS NOT SOCIAL CREDIT

Giving evidence before the committee of the legislature a year ago, Major Douglas stated that he had read Mr. Alberta's pamphlet entitled "The Douglas System of Economics".

"This booklet was submitted to the Secretariat (of the Douglas Social Credit Headquarters) and the verdict of the publication committee was that it was technically unsound."

Mr. Alberta's present scheme of issuing credit certificates is based on his understanding of Major Douglas' system. But the Secretariat says that Alberta does not understand what the system is. His scheme of Social Credit being wrong, the complicated plan he has based on that conception is necessarily out of alignment.

The only Social Credit there is in the I.O.U. scheme is the name he has put on it, and the name doesn't fit if the Secretariat know what it was talking about.

### THE CHIEF TROUBLE

Hon. H. H. Stevens says our distribution system is "archaic." Worse than that, Mr. Stevens, worse than that.

The other day Stevens doggedly estimates what the trade, tariff and money policies he advocated with such enthusiasm and administered with such deadly efficiency have done to the circulation of goods and services in Canada. The system is completely out of business than it ever was before.

And there isn't a sign or chance of it reviving until those policies have been reversed; which Mr. Stevens has not given no hint of doing or what he would do if he did. And he doesn't do any good to monkey with the car-buretor and readjust the feed lines. These need timely attention of course, but the more serious master is the feeling with the gadgets doesn't provide the answer.

The one thing that can put new life into the stalled machinery of distribution is a new supply of buying power in the pockets of the common public; and the only way to provide that is to get international trade going again and loosen up money and credit.

### IMPROVEMENT IS GOOD

#### BUSINESS

Thus far the city council does not seem to have launched any new construction work, beyond improving the Stadium and grading the eastward extension of Jasper avenue to the Highlands.

There are not large undertakings. They do not provide more than a small fraction of the amount of employment city work should normally supply. They only make up a fraction of the amount of improvement and repair work a city should do in any year, must do to keep from falling behind.

Do these modest undertakings exhaust the resources of the city, to such a degree that council cannot finance the difference between the cost of maintaining roads and the cost of paying out relief money?

In these times the actual cost of a public improvement to the city is not the whole amount of money put into it. The Governments pay a part of the cost. And if the improvement is not made a large part of the money will have to be paid out in relief allowances.

The real cost to the city is not the whole amount of money put into it. The Governments pay a part of the cost. And if the improvement is not made a large part of the money will have to be paid out in relief allowances.

The real cost to the city is not the whole amount of money put into it. The Governments pay a part of the cost. And if the improvement is not made a large part of the money will have to be paid out in relief allowances.

The scheme originated with groups of enterprising individuals who did not seem to understand that if they are to hold control over the money and trade policies of Canada they will have to do it through some other agency than a single party. No party that valued its

life to say nothing about principle, would stand sponsor for them and their aims.

Hence the propaganda that has been coming through the mails for months from these centres, telling about what a hopeless condition the country is in and urging the necessity of picking the country clean from all parties and putting them in a cabinet to run the country in strictly non-partisan and strictly business lines.

One of the gifted pamphleteers, however, let the cat out of the bag when he explained that if the two railway systems were amalgamated it would no longer be necessary to nominate names from the diverse millions. Mr. King, from his broader terms, the object of these high-minded patriots is to save the country by getting control of the tariff, railroads, and money, and by making all things work together for their own good.

Mr. King, in his opening speech, not only cleared away any suspicion he might be in the deal, but exposed the whole conspiracy. For that he deserves the thanks of the public—who will now see how rapidly and completely the "national" government movement can crawl into the hole and get itself forgotten.

You can also do to a man or a woman or a child. You can get the upper hand of them by force, or trickery of any sort, or even by teaching them that it is their religious duty to sacrifice their bodies to you."

## VAN ALLEN BLAMES TARIFFS FOR LACK OF BUYING POWER

### Says Present Trade Situation Is Due To Bennett's Policies

#### P. H. BELCHER DIES SUNDAY IN HOSPITAL

#### Veteran Police Official and Former Magistrate Had Colorful Career

Oldtimer of the Edmonton district and veteran of the Royal Canadian Mounted Police, Percy H. Belcher died Sunday at the University hospital. He was 78 years old.

Lack of purchasing power among the people of the nation, the speaker said, is mainly so much attention to the present time is due to the trade situation under the Bennett tariffs, contended George H. Van Allen, Kinsmen club president, in Edmonton in the provincial election, when addressing an enthusiastic meeting of the supporters of Richmond Park on the Saturday night.

The speaker said that it matters not what the policies of government may be, the fundamental principle applies that unless trade can flow freely, there can be no purchasing power will decline, resulting in surplus production at home, unemployment.

The only true source of purchasing power is commerce. Strange the trade is not commerce, and you paper it in.

#### FUNDAMENTAL REMEDIES

Liberals said Mr. Van Allen, has fundamental remedies for the depression, the first, by re-opening the channels of trade and restoring the purchasing power of the tariffs, the abolition of embargoes, quotas, and other restrictions to commercial basic industries, second, monetary reconstruction.

These two basic remedies form the spear-head of the Liberal attack on poverty in the midst of plenty.

#### COMMON GROUNDS

Mr. Van Allen said the greatest program of reform outlined in the second reading speech of Mr. W. L. Mackenzie King was said to be in common ground upon which all Canadians from coast to coast can unite, and that the only way to bring about this, with a united nation behind him, Mr. King can carry out these programs.

During the past week, the speaker, he had toured a number of the southern prairie provinces on behalf of the Alberta Liberal leader, and as the result, he could assure his supporters that the government is already defeated and the election is resolving into a contest between the Conservatives and Liberals.

"The supreme issue of the election," asserted Mr. W. H. Allen, minister of finance, "is the Liberal program, both provincial and federal, is feasible, practicable and legal. Alberta Social Credit on the other hand is impossible and the direct road to chaos and bankruptcy."

The Alberta scheme, continued Mr. Allen, consists of a series of economic policies. If there are to be distributed 120 million dollars to the people of Alberta, the people of Alberta must pay for, or produce that quantity of goods in each year. The first step in the cycle of credit theory of Mr. Alberta, reveals the complete misunderstanding of the Social Credit leader of the first principle of economics, the law of price, the law of supply and price, as disclosed in the Social Credit Manual.

The Social Credit of the Social Credit would be out of the system that he has at the present time. If the just price of the world price, the farmer gets just the price. Why should he not get the world price? Cost

versely, if the just price, or fixed

#### MORE SHOWERS ARE PREDICTED

Scattered showers without much change in temperature, will prevail over Alberta throughout Monday and Tuesday, according to the official weather forecast.

During the past week, the scattered showers brought down moisture to the ground.

The greatest mark touched by the mercury was 74 on Sunday with a low of 65 as against 61 for the same day a year ago.

On Monday the sun will rise at 4:45 a.m. and set at 8:21 p.m.

At midnight the temperature stood at 64. The mercury fell to 57 until 9 a.m. and was 57, 55, 52, 51, 51, 53, 55, 56.

Hudson's Bay Co. North Manager Is Visitor Here

William G. Gartell, manager of the Hudson's Bay Co. post at Fort Resolution, and G. R. Reid, the department of the Hudson's Bay Co., arrived about a Manitoba Air Services Ltd. plane that arrived at Cooking Lake Sunday evening from the north.

Mr. Gartell is making his first visit to the northern posts. He has been here since Aug. 1. Mr. Reid has been on an inspection tour of northern Indian reservations for the past month.

Marlowe Kennedy piloted the

plane.

## THIS CURIOUS WORLD

BEES IN MALAY MAKE MONEY BUT DO NOT EAT IT! SINCE THERE IS NO WINTER THERE THE BEE'S NEED NOT STORE UP FOOD.

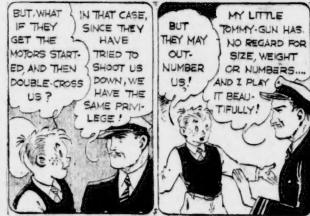

THE FOLLOWING NAMES ARE TOWNS IN THE UNITED STATES: LEAF, N. CAROLINA BUDS, ILLINOIS PETAL, MISSISSIPPI BLOSSOM, BRANCH, WISCONSIN

BEES IN MALAY live on nectar the year round, but they continue to make honey all the while. Sometimes the huge honeycombs grow to such proportions that the tree limb on which it is placed gives way under the strain. A honeycomb six feet in length is not uncommon.

NEXT: How many square miles of glacier ice has Mount Rainier on its slopes the year round?
